### **Boștină and Associates, wins ZF award for 2010's largest energy deal**

Bucharest, May the 25<sup>th</sup>, 2011 – At the ZF's second ceremony of Lawyers' Gala, Boștină and Associates was awarded the prize for 2010's largest energy deal, i.e. Uzina Electrica Giurgiu's privatization by asset sale.

“This award comes to acknowledge once more the high expertise we have gained with tens of major projects concerning the energy sector and the related practice areas, such as privatization, utilities and environment, etc. This expertise enabled us to embark this year on a new thermal electricity project for the building of a biomass- and methane-fuelled cogeneration plant in Suceava, the first medium-sized Greenfield project developed in Romania's energy sector,” says Managing Partner Doru Cătălin Boștină.

Furthermore, during the Lawyer's Gala, Boștină and Associates was also nominated for the largest deal in the medical services market.
